

PRIVATE REHABILITATION PROGRAM – APPLICATION

Wooster and Wayne County Partnership Community Housing Impact and Preservation Program (CHIP)

Program Description:

This is an activity for low-income homeowners to improve their homes up to standards established by the State of Ohio. Homeowners may receive up to \$30,000 in partially forgivable loans for home rehabilitation costs. In exchange for receiving financial assistance, homeowners agree to reside in and maintain the assisted home for five years. The program forgives 85 percent of the loan (17 percent per year), while the remaining 15 percent is only due once the home is sold.

Who funds the program?

This program is funded with federal funding through the State of Ohio's Development Services Agency. The City of Wooster, Orrville and Wayne County created a Partnership to apply for CHIP Funds in 2014. The City of Wooster selects qualified projects within its city limits, while Wayne County selects qualified projects for all other areas of the County. The Wayne Metropolitan Housing Authority helps Wayne County and the City of Wooster in administering the CHIP program, and is the rehabilitation specialist responsible for conducting all inspections, work write ups, work supervision, and payments.

What type of assistance is available?

Depending upon the needed repairs and/or upgrades, a homeowner may receive up to \$30,000 in a partially forgivable loan for rehabilitation cost, including lead-based paint removal. Costs may vary.

Who determines what work is needed?

The CHIP staff conducts an inspection to determine what work needs to be done in order to bring both the interior and exterior elements up to the state's residential rehabilitation standards. CHIP staff will conduct periodic inspections of the rehabilitation work until the project is complete.

Who determines how much the rehabilitation will cost?

Using the CHIP specifications and cost estimate analysis, the Rehabilitation Specialist will solicit competitive bids from approved contractors. A contract will be signed with the lowest and best bidder.

What happens if the cost of repairs exceeds the limit?

CHIP is allowed to assist the homeowner only up to the allowable limits noted above. CHIP has the option of walking away from a project if it feels costs are too high.

Who decides what contractor does the work?

The homeowner, with technical assistance from the CHIP staff, will determine the lowest and best bidder. Contracts must be completed between the homeowner and the contractor.

How are payments to the contractor made?

Payments will be made only for work that is performed. Prior to final payment, the contractor will be required to produce all necessary releases and warranties from subcontractors and suppliers as well as their own warranties.

The Private Rehabilitation Program includes the following steps:

1. Homeowners work with CHIP Staff to complete an application. Homeowners are determined to be eligible when their properties do not meet the State's residential rehabilitation standards and when they meet certain income requirements. Because funding is limited, applications will be rated and those with the greatest need will be awarded with entry into the program.
2. The CHIP staff conducts a detailed inspection of the eligible homes and identifies needed improvements which must be completed to satisfy state requirements. Work specifications and cost estimates for improvements are then developed.
3. Homeowner and CHIP staff agree upon home improvements.
4. The CHIP staff solicits bids from approved contractors. (At least three if possible).
5. Bids are reviewed and accepted before a contract is executed between homeowner and contractor.
6. Rehabilitation begins and the CHIP staff supervises and inspects contractor work.
7. Contractor requests periodic payment for work completed.
8. When rehabilitation is completed, a final inspection is conducted, final payment made, and homeowner signs releases.

How does one find out more about this program?

Contact the CHIP office at the Wayne Metropolitan Housing Authority, 345 North Market Street, Wooster, Ohio or call the CHIP Administrator at (330) 264-2727.

The following are the annual income limits for the Private Rehabilitation Program as of 2014:

1 person	\$39,400.00
2 persons	\$45,000.00
3 persons	\$50,650.00
4 persons	\$56,250.00
5 persons	\$60,750.00
6 persons	\$65,250.00
7 persons	\$69,750.00
8 persons	\$74,250.00

How does one find out more about this program?

Contact the CHIP office at Wayne Metropolitan Housing Authority, 345 North Market Street, Wooster, Ohio or call the CHIP Administrator at (330) 264-2727 and we will be happy to provide you with an application and answer your questions. Unfortunately, there is not enough funding to meet every need, therefore, CHIP funds are awarded to households most in need based on income and need for repairs. We will accept applications as funding lasts.

Please note, the City of Wooster, City of Orrville, and Village of Doylestown offer tax abatement programs for homeowners and landlords performing major home or duplex rehabilitations in certain neighborhoods. Please contact your local officials to learn about the Community Reinvestment Area.

PRIVATE REHABILITATION APPLICATION: BASIC INFORMATION

Community Housing Impact and Preservation Program: Private Rehabilitation Application

Please review, sign, and date this application (Pages 3 through 10, and OCD-13-02 and Lead Disclosure) and return to the CHIP Office, located at the Wayne Metropolitan Housing Authority at 345 N. Market Street, Wooster, Ohio 44691. If you have questions, please feel free to contact the CHIP Administrator at (330) 264-2727. **Please Note: Applications that are deemed to be incomplete, or determined to contain information that is false or inaccurate, may not be considered.**

Required Attachments: *In addition to this Application, please attach all of the following:*

- Pay stubs for last 3 months or current signed earnings statement from employer and verification of all other sources of income;
- Copy of deed with legal description;
- 12 Month mortgage payment history and most recent bank statement checking & savings
- Copies of birth certificates for each member of the household;
- Copies of Social Security Card for each member of household

TECHNICAL ASSISTANCE REQUEST

Community Housing Impact and Preservation Program: Private Rehabilitation Application

Due to the requirements for local government procurement of services, it is essential that you, as the property owner, effectively procure and contract for any work to be completed on your property. As there are many technical details required in processing your application and completing the home repair/rehabilitation, you are allowed to request assistance from the staff of the Community Housing Impact and Preservation Program (CHIP).

The technical assistance will enable you to make the best use of taxpayer funds while complying with Ohio Development Services Agency regulations, the Residential Rehabilitation Standards, and the Guidelines for the Evaluation and Control of Lead-Based Hazards in Housing. CHIP staff will assist you in obtaining available benefits and advise you regarding regulatory provisions and limitations. They will also provide forms, file documentation, technical data and guidance, resources, names of qualified contractors, notarization of signatures, supervision of work performed, and payment of CHIP share for work completed.

REQUEST FOR TECHNICAL ASSISTANCE

I request the staff of the Community Housing Impact and Preservation Program (CHIP) to assist me in applying for housing benefits available through CHIP and to provide technical guidance throughout the process if my property is selected for repair or rehabilitation.

CERTIFICATION BY APPLICANT (S)

Community Housing Impact and Preservation Program: Private Rehabilitation Application

PLEASE READ THE FOLLOWING STATEMENT. IF YOU DO NOT UNDERSTAND ANY PART OF IT OR HAVE ANY QUESTIONS ABOUT WHAT YOU ARE ASKED TO SIGN, PLEASE ASK SOMEONE AT THE AGENCY TO HELP YOU. BOTH APPLICANTS MUST SIGN IN BLACK BELOW.

I certify that all the information in this application is true and complete to the best of my knowledge. I understand this information is subject to verification.

I authorize this agency or its representatives and designees of the Ohio Development Services Agency's Office of Community Development (OCD) and the U.S. Department of Housing and Urban Development (HUD) to inspect and evaluate actual services provided to me. I understand that any and all information provided in this application may be used for that purpose.

I understand that the personal financial information contained in this application is necessary for evaluation of my application for assistance. This information, however, will remain confidential and will not be disclosed to the news media or other third parties. I further understand that my name, address, and total amount of rehabilitation assistance will be subject to public disclosure because public funds are being utilized to rehabilitate my property.

PENALTY FOR FALSE OR FRAUDULENT STATEMENT: U.S.C. Title 18, Sec. 1001, provides: "Whoever, in any matter within the jurisdiction of any department of agency of the United States knowingly and willfully falsifies or makes any false, fictitious, or fraudulent statement or entry, shall be fined not more than \$10,000 or imprisoned not more than five years, or both."

TERMS AND CONDITIONS FOR HOMEOWNERS ACCEPTING PRIVATE REHABILITATION ASSISTANCE

Community Housing Impact and Preservation Program: Private Rehabilitation Application

These are the terms and conditions that you as Owner(s) must agree to in order to receive housing and rehabilitation assistance from the City of Wooster and Wayne County Partnership's Community Housing Impact and Preservation Program (CHIP). These terms and conditions will become a part of your Agreement for a loan/grant that finances the improvements to your property. The City of Wooster will have authority over all loans provided for projects within its jurisdiction, while Wayne County will have authority over all loans provided for projects located in all other areas of Wayne County.

As Applicant, I (we) agree to:

1. **Inspection:** I will allow inspection of the property by the CHIP staff, public building, electrical, plumbing and health department officials and inspectors, and contractors who are bidding on the proposed rehabilitation work.
Inspections will be made before, during and after completion of the rehabilitation work.
2. **Competitive Bidding:** I will permit the CHIP staff to seek competitive bids from qualified contractors for all the rehabilitation work. Bids will be requested according to procedures established by the City of Wooster and Wayne County Partnership and in accordance with applicable federal, state and local laws.
3. **Agreement with Contractor:** I agree to enter into a Contract with the lowest and best bidder, normally the low bidder. I understand that I may reject, in writing the low bidder in favor of the next highest bidder if in my opinion the low bidder does not possess the experience, skill or resources to satisfactorily complete the job, or the ability to proceed in a timely manner, or who has not visited my house, before preparing the bid. I also understand that I may have to pay the difference between the lowest bid and the bid I accept if CHIP staff does not approve the next highest or other than low bidder.
4. I will refrain from making side agreements with the contractor for work not included in my Agreement with the contractor, or not included in any written Change Orders approved by the CHIP staff until all work under the Contract is satisfactorily completed. The City of Wooster and Wayne County Partnership assumes no responsibility for the cost or quality of work not covered by the Agreement or approved Change Orders.
5. **Conflict of Interest:** I will not pay any bonus, commission or fee to anyone for the purpose of obtaining approval of any application for rehabilitation assistance. I will not allow any member of the United States Congress or State government, elected official of the City of Wooster or Wayne County or CHIP employee who exercises any functions or responsibilities in connection with the administration of this Housing Rehabilitation Program to have any interest in or benefit from a rehabilitation loan or grant financed under my Agreement.
6. **Non-Discrimination:** I will not discriminate in the sale, lease, rental use or occupancy of my property, as required by Title VI of the Civil Rights Act of 1964.

7. Maintenance of the Property: I will make every reasonable effort to keep my property in safe, sound and habitable condition following completion of the rehabilitation work.
8. Hazard Insurance: I will obtain hazard (fire, property and liability damage) insurance on the property to be rehabilitated in an amount based on its value after rehabilitation. Such insurance must be maintained throughout the term of the loan and shall carry an endorsement to the City of Wooster and Wayne County Partnership CHIP.
9. Loan Subordination: I agree that the property is not available as a source of collateral for future loans when such loans require subordination of the loan made by the City of Wooster or Wayne County through the City of Wooster and Wayne County Partnership CHIP. The City of Wooster may subordinate its loan if, in its judgment, it is in the best interests of both the City of Wooster and the Owner and approved in writing. Similarly, Wayne County may subordinate its loan if, in its judgment, it is in the best interests of both Wayne County and the Owner and approved in writing.
10. Loan Repayment: I agree to a mortgage and promissory note, and further agree to all the payment schedules, if any, which are detailed in the Promissory Note. Specific terms governing the loan are contained in the Mortgage, Promissory Note and Truth-in-Lending statements.
11. Right to Financial Privacy: The Federal Financial Privacy Act of 1978 guarantees financial confidentiality to persons requesting assistance directly or indirectly from the federal government. To comply with this law, the City of Wooster and Wayne County Partnership, which includes the governments of the City of Wooster and Wayne County, must inform the rehabilitation client that no financial information will be disclosed or released to another government agency (except the Ohio Development Services Agency (ODSA) and the U.S. Department of Housing and Urban Development (HUD) which may review the file on a monitoring visit) without the prior written consent of the client. Financial records involving my transaction will be available to ODSA and HUD without further notice or authorization, but will not be disclosed or released to another government agency or department without my consent except as required or permitted by law. Also, verification forms sent to other agencies for the purpose of determining my eligibility for the rehabilitation program must contain a signed Authorization to Release Information.

SUBJECT: Dispute Resolution and Conflict Management Policy for Office of Community Development for housing rehabilitation and repair activities except for projects funded through the Ohio Housing Finance Agency.

ISSUED: July 1, 2013

DISTRIBUTED TO: Office of Community Development Award Recipients and their Affiliates

PROGRAM POLICY

The Office of Community Development is replacing the original Program Policy Notice to provide clarity and update the requirements of dispute resolution and conflict management for the Office of Community Development funded programs. This policy applies to all programs funded through the Office of Community Development's Residential Revitalization Section, Economic and Appalachian Development Section and the Supportive Housing Section. It does not apply to projects funded through the Ohio Housing Finance Agency. The Office of Community Development Dispute Resolution and Conflict Management Policy applies to all direct beneficiary-related housing rehabilitation, repair and construction projects completed with the Office of Community Development program funds and program income, beginning with grants funded in FY 2013.

General Requirements

To protect the interest of the parties involved in the Office of Community Development-funded housing activities, the Ohio Development Services Agency's Office of Community Development established the Dispute Resolution and Conflict Management Policy.

The policy outlines the responsibilities of the grantee, administrator, homeowners and contractors responsible for completing the Office of Community Development-funded projects. This policy applies only to those projects which include housing rehabilitation, repairs and construction. The grantee shall have appropriate procedures in place to address disputes arising from walkaway projects and/or non-construction activities. During the Office of Community Development's monitoring of a grant, compliance with this policy and local procedures will be confirmed.

The Office of Community Development will not entertain requests to intervene during a dispute. If it becomes necessary to proceed to arbitration, the arbitrator's decision is final and binding. No dispute or argument will be considered after this process is complete.

Recommendation: Most disputes can be prevented by all parties if there is a clear understanding of material quality standards and material selection limitations. Signed approval of material selection, color choices and change orders can assist in the prevention of a conflict.

To ensure that the appropriate parties are informed about the Dispute Resolution and Conflict Management Policy, grantees must provide a copy of the Dispute Resolution and Conflict Management Policy and Dispute Resolution Form to every administrator, rehabilitation/repair/construction client, contractor and when/if necessary any mediator and/or arbitrator. The grant administrator shall provide copies of the policy to both the client and contractor at the pre-construction conference and obtain their signatures acknowledging receipt, along with their complete understanding of the Dispute Resolution and Conflict Management Policy. By acknowledging receipt of the policy all parties agree to abide by the terms therein. A clause shall be incorporated in any rehabilitation/repair/construction contract referring to the Dispute Resolution and Conflict Management Policy. The original document must be maintained in the program's administrative file and copies provided to the homeowner and contractor.

The grantee is responsible for developing an alternative written method for communicating with an applicant if the applicant has a disability (e.g., physical, visual, hearing, speech and/or cognitive disability), is functionally illiterate, or has limited English proficiency and requests an accommodation. The grantee must also provide a copy of the written alternative method for communicating with a homeowner/applicant who is disabled to the administrator. For guidance regarding communicating with people with disabilities, visit <http://www.adata.org/ada-document-portal>. The cost of providing an accommodation to persons with a disability is the responsibility of the grantee.

The homeowner must understand their signature and date on the certification of completion verifies satisfaction of the contractor's workmanship and validates final payment. No complaints regarding workmanship will be accepted after that date. Failed items covered under the warranties should be handled by contacting the contractor directly, in writing if necessary, detailing all warranty items that need addressed, within 12 months of work completion. The grantee and program administrator have no obligation to assist with warranty work issues.

The cost of mediation and arbitration shall be borne by the grantee. Charges are eligible to be paid with active grant funds as soft costs, administration funds, or program income of the same activity source. If funds are not available, contact the Office of Community Development program representative for assistance in seeking other funding options.

Resolution of disputes shall follow the format described below.

Dispute Resolution and Conflict Management Process

1. If there is any dispute regarding the scope of work, workmanship or material quality/selection or any other discrepancy, the homeowner must notify the contractor immediately. If the contractor is not on site, the disputed work must stop and the contractor will be notified. Disputed work will not proceed until the issue is resolved.
2. Both the homeowner *and* contractor shall contact the administrator immediately when/if the dispute is not resolved between the contractor and the homeowner at step #1.
3. The administrator and/or grantee, rehabilitation specialist, contractor and the homeowner shall make a good faith effort to resolve the dispute at this time. If resolved, details of the dispute and resolution must be documented and signed at this time. The documentation will be placed in the client file.
4. If the dispute is not resolved at step #3, the homeowner must submit a written complaint to the grantee within five working days, on the Dispute Resolution Form provided.

Note: Disputed work that is necessary for the health and safety of the occupants, sanitary reasons or the protection of the structure and/or property, should proceed to the extent necessary to safeguard until the dispute is resolved.

5. Upon receipt of a written complaint, the administrator shall notify the grantee of the dispute. The grantee may attempt local resolution at this point, but in any case, shall require the administrator to respond in writing within 15 working days of receiving the complaint. Local resolution may be, but is not limited to, a review committee comprised of impartial members. Procedures for local resolution methods must be attached to this policy, and described in the grantee's local Policies and Procedures Manual.
6. The homeowner shall provide a statement, in writing, within 15 working days of the grantee's response date either accepting the proposed resolution or requesting mediation.
7. Within 15 working days of the date of the homeowner's response requesting mediation, the grantee and administrator shall provide the homeowner with the option of two dates for mediation.*

*The grantee may opt to proceed directly to arbitration.

Mediator Responsibilities

If the dispute cannot be resolved through negotiations with all parties, it may be submitted to mediation if the grantee chooses. The mediator is responsible for assisting the parties, impartially, in reaching an agreement on the disputed matter within 30 days of receiving the dispute.

The grantee may use the assistance of, but are not limited to, the Ohio Mediation Association to identify a mediator. The Ohio Mediation Association can be reached at P.O. Box 473, Columbus, Ohio, 43216, and can be contacted by telephone at (614) 321-7922, and by email at <http://mediateohio.org>.

Arbitrator Responsibilities

If the dispute cannot be resolved through negotiations with all parties **or** through the optional mediation process, the dispute **must** be submitted to arbitration. The arbitrator is responsible for providing a resolution to the dispute submitted by the applicant within 60 days of receiving the dispute.

The administrator may use the assistance of, but are not limited to, the American Arbitration Association. The American Arbitration Association is located at 250 East Fifth Street, Suite 330, Cincinnati, Ohio 45202-4173 and can be contacted by telephone at (513) 241-8434 or by fax at (513) 241-8437. For more information regarding the American Arbitration Association, visit <http://www.adr.org/>.

The arbitrator's decision is final and binding. No dispute or argument will be considered after this process is complete.

We hereby acknowledge receipt of this copy of the *Dispute Resolution and Conflict Management Policy*. We understand and accept the outlined process for any and all disputes that may result from our involvement with the program.

NOTIFICATION

Watch Out for Lead-Based Paint Poisoning

This property was constructed before 1978. There is a possibility it contains lead-based paint. Please read the following information concerning lead-based paint poisoning.

Sources of Lead Based Paint

The interiors of older homes and apartments often have layers of lead-based paint on the walls, ceilings, window sills, doors and door frames. Lead based paint and primers may also have been used on outside porches, railings, garages, fire escapes and lamp posts. When the paint chips, flakes or peels off, there may be a real danger for babies and young children. Children can also ingest lead even if they do not specifically eat paint chips. For example, when children play in an area where there are loose paint chips or dust particles containing lead, they may get these particles on their hands, put their hands into their mouths, and ingest a dangerous amount of lead.

Hazards of Lead-Based Paint

Lead poisoning is dangerous - especially to children under the age of seven (7). It can eventually cause mental retardation, blindness and even death.

Symptoms of Lead-Based Paint Poisoning

Has your child been especially cranky or irritable? Is he or she eating normally? Does your child have stomachaches and vomiting? Does he or she complain about headaches? Is your child unwilling to play? These may be signs of lead poisoning. Many times though, there are no symptoms at all. Because there are no symptoms does not mean that you should not be concerned if you believe your child has been exposed to lead-based paint.

Advisability and Availability of Blood Lead Level Screening

If you suspect that your child has eaten chips of paint or someone told you this, you should take your child to the doctor or clinic for testing. If the test shows that your child has an elevated blood lead level, treatment is available. Contact your doctor or local health department for help or more information. Lead screening and treatment are available through the Medicaid Program for those who are eligible. If your child is identified as having an elevated

blood lead level, you should immediately notify the Community Development or other agency to which you or your landlord is applying for rehabilitation assistance so the necessary steps can be taken to test your unit for lead-based paint. You may be eligible for assistance to abate the hazard.

Precautions to Take to Prevent Lead-Based Paint Poisoning

You can avoid lead-based paint poisoning by performing some preventive maintenance. Look at your walls, ceilings, doors, door frames and window sills. Are there places where the paint is peeling, flaking, chipping, or powdering? If so, there are some things you can do immediately to protect your child:

- (a) Cover all furniture and appliances;
- (b) Dust containing lead can be a health hazard. DO NOT vacuum loose paint. Sweep and damp mop;
- (c) Sweep up all pieces of paint and plaster and put them in a paper bag or wrap them in newspaper. Put these packages in the trash can. DO NOT BURN THEM;
- (d) Do not leave paint chips on the floor in window wells. Damp mop floors and window sills in and around the work area to remove all dust and paint particles. Keeping these areas clear of paint chips, dust and dirt is easy and very important, and;
- (e) Do not allow loose paint to remain within your children's reach since children may pick loose paint off the lower part of the walls.

Homeowner Maintenance and Treatment of Lead-Based Paint Hazards

As a homeowner, you should take the necessary steps to keep your home in good shape. Water leaks from faulty plumbing, defective roofs and exterior holes or breaks may admit rain and dampness into the interior of your home. These conditions damage walls and ceilings and cause paint to peel, crack or flake. These conditions should be corrected immediately. Before repainting, all surfaces that are peeling, cracking, chipping or loose should be thoroughly cleaned by scraping or brushing the loose paint from the surface, then repainted with two (2) coats of non-

leaded paint. Instead of scraping and repainting, the surface may be covered with other material such as wallboard, gypsum, or paneling.

Beware that when lead-based paint is removed by scraping or sanding, a dust is created, which may be hazardous. The dust can enter the body either by breathing it or swallowing it. The use of heat or paint removers could create a vapor or fume which may cause poisoning if inhaled over a long period of time. Whenever possible, the removal of lead-based paint should take place when there are no children or pregnant women on the premises. Simply painting over defective lead-based paint surfaces does not eliminate the hazard. Remember that you as an adult play a major role in the prevention of lead poisoning. Your actions and awareness about the lead problem can make a big difference.

Tenant and Homebuyer Responsibilities

You should immediately notify the management office or the agency through which you are purchasing your home if the unit has flaking, chipping, powdering or peeling paint, water leaks from plumbing, or defective roof. You should cooperate with that office's efforts to repair the unit.

I have received a copy of the Notice entitled "Watch Out for Lead Paint Poisoning."

FAIR HOUSING

Equal Opportunity for All

U.S. Department of Housing and Urban Development
Office of Fair Housing and Equal Opportunity

Please visit our website: www.hud.gov/fairhousing

FAIR HOUSING – EQUAL OPPORTUNITY FOR ALL

America, in every way, represents equality of opportunity for all persons. The rich diversity of its citizens and the spirit of unity that binds us all symbolize the principles of freedom and justice upon which this nation was founded. That is why it is extremely disturbing when new immigrants, minorities, families with children, and persons with disabilities are denied the housing of their choice because of illegal discrimination.

The Department of Housing and Urban Development (HUD) enforces the Fair Housing Act, which prohibits discrimination and the intimidation of people in their homes, apartment buildings, and condominium developments – in nearly all housing transactions, including the rental and sale of housing and the provision of mortgage loans.

Equal access to rental housing and homeownership opportunities is the cornerstone of this nation's federal housing policy. Housing providers who refuse to rent or sell homes to people based on race, color, national origin, religion, sex, familial status, or disability are violating federal law, and HUD will vigorously pursue enforcement actions against them.

Housing discrimination is not only illegal, it contradicts in every way the principles of freedom and opportunity we treasure as Americans. HUD is committed to ensuring that everyone is treated equally when searching for a place to call home.

FAIR HOUSING Equal Opportunity for All

THE FAIR HOUSING ACT

The Fair Housing Act prohibits discrimination in housing because of:

- Race or color
- National Origin
- Religion
- Sex
- Familial status (including children under the age of 18 living with parents or legal custodians; pregnant women and people securing custody of children under 18)
- Disability

WHAT HOUSING IS COVERED?

The Fair Housing Act covers most housing. In some circumstances, the Act exempts owner-occupied buildings with no more than four units, single-family housing sold or rented without the use of a broker and housing operated by organizations and private clubs that limit occupancy to members.

WHAT IS PROHIBITED?

In the Sale and Rental of Housing: No one may take any of the following actions based on race, color, religion, sex, disability, familial status, or national origin:

- Refuse to rent or sell housing
- Refuse to negotiate for housing
- Make housing unavailable
- Otherwise deny a dwelling
- Set different terms, conditions or privileges for sale or rental of a dwelling
- Provide different housing services or facilities
- Falsely deny that housing is available for inspection, sale or rental

- For profit, persuade, or try to persuade homeowners to sell or rent dwellings by suggesting that people of a particular race, etc. have moved, or are about to move into the neighborhood (blockbusting) or
- Deny any person access to, membership or participation in, any organization, facility or service (such as a multiple listing service) related to the sale or rental of dwellings, or discriminate against any person in the terms or conditions of such access, membership or participation.

In Mortgage Lending: No one may take any of the following actions based on race, color, religion, sex, disability, familial status, or national origin:

- Refuse to make a mortgage loan
- Refuse to provide information regarding loans
- Impose different terms or conditions on a loan, such as different interest rates, points, or fees
- Discriminate in appraising property
- Refuse to purchase a loan or
- Set different terms or conditions for purchasing a loan.
- In addition, it is a violation of the Fair Housing Act to:
- Threaten, coerce, intimidate or interfere with anyone exercising a fair housing right or assisting others who exercise the right
- Make, print, or publish any statement, in connection with the sale or rental of a dwelling, which indicates a preference, limitation, or discrimination based on race, color, religion, sex, disability, familial status, or national origin. This prohibition against discriminatory advertising applies to single-family and owner-occupied housing that is otherwise exempt from the Fair Housing Act
- Refuse to provide homeowners insurance coverage for a dwelling because of the race, color, religion, sex, disability, familial status, or national origin of the owner and/or occupants of a dwelling
- Discriminate in the terms or conditions of homeowners insurance coverage because of the race, color, religion, sex, disability, familial status, or national origin of the owner and/or occupants of a dwelling

- Refuse to provide available information on the full range of homeowners insurance coverage options available because of the race, etc. of the owner and/or occupants of a dwelling
- Make print or publish any statement, in connection with the provision of homeowners insurance coverage, that indicates a preference, limitation or discrimination based on race, color, religion, sex, disability, familial status or national origin.

ADDITIONAL PROTECTION IF YOU HAVE A DISABILITY

If you or someone associated with you:

- Have a physical or mental disability (including hearing, mobility and visual impairments, cancer, chronic mental illness, HIV/AIDS, or mental retardation) that substantially limits one or more major life activities
- Have a record of such a disability or
- Are regarded as having such a disability, a housing provider may not:
 - Refuse to let you make reasonable modifications to your dwelling or common use areas, at your expense, if it may be necessary for you to fully use the housing. (Where reasonable, a landlord may permit changes only if you agree to restore the property to its original condition when you move.)
 - Refuse to make reasonable accommodations in rules, policies, practices or services if it may be necessary for you to use the housing on an equal basis with nondisabled persons.

Example: A building with a “no pets” policy must allow a visually impaired tenant to keep a guide dog.

Example: An apartment complex that offers tenants ample, unassigned parking must honor a request from a mobility-impaired tenant for a reserved space near her apartment if it may be necessary to assure that she can have access to her apartment.

However, the Fair Housing Act does not protect a person who is a direct threat to the health or safety of others or who currently uses illegal drugs.

Accessibility Requirements for New Multifamily Buildings: In buildings with four or more units that were first occupied after March 13, 1991, and that have an elevator:

- Public and common use areas must be accessible to persons with disabilities
- All doors and hallways must be wide enough for wheelchairs
- All units must have:
 - An accessible route into and through the unit
 - Accessible light switches, electrical outlets, thermostats and other environmental controls
 - Reinforced bathroom walls to allow later installation of grab bars and
 - Kitchens and bathrooms that can be used by people in wheelchairs.

If a building with four or more units has no elevator and was first occupied after March 13, 1991, these standards apply to ground floor units only.

These accessibility requirements for new multifamily buildings do not replace more stringent accessibility standards required under State or local law.

The Fair Housing Act makes it unlawful to discriminate against a person whose household includes one or more children who are under 18 years of age (familial status). Familial status protection covers households in which one or more minor children live with:

- A parent;
- A person who has legal custody (including guardianship) of a minor child or children; or
- The designee of a parent or legal custodian, with the written permission of the parent or legal custodian.

Familial status protection also extends to pregnant women and any person in the process of securing legal custody of a minor child (including adoptive or foster parents).

The “Housing for Older Persons” Exemption: The Fair Housing Act specifically exempts some senior housing facilities and communities from liability for familial status discrimination. Exempt senior housing facilities or communities can lawfully refuse to sell or rent dwellings to families with minor children. In order to qualify for the “housing for older persons” exemption, a facility or community must prove that its housing is:

- Provided under any State or Federal program that HUD has determined to be specifically designed and operated to assist elderly persons (as defined in the State or Federal program); or
- Intended for, and solely occupied by persons 62 years of age or older; or
- Intended and operated for occupancy by persons 55 years of age or older.

In order to qualify for the “55 or older” housing exemption, a facility or community must satisfy each of the following requirements:

- at least 80 percent of the units must have at least one occupant who is 55 years of age or older; and

- the facility or community must publish and adhere to policies and procedures that demonstrate the intent to operate as “55 or older” housing; and
- the facility or community must comply with HUD’s regulatory requirements for age verification of residents.

The “housing for older persons” exemption does not protect senior housing facilities or communities from liability for housing discrimination based on race, color, religion, sex, disability, or national origin.

HUD is ready to help with any problem of housing discrimination. If you think your rights have been violated, you may file a complaint online, write a letter or telephone the HUD office nearest you. You have one year after the alleged discrimination occurred or ended to file a complaint with HUD, but you should file it as soon as possible.

IF YOU THINK YOUR RIGHTS HAVE BEEN VIOLATED

What to Tell HUD:

- Your name and address
- The name and address of the person your complaint is against (the respondent)
- The address or other identification of the housing involved
- A short description of the alleged violation (the event that caused you to believe your rights were violated)
- The date(s) of the alleged violation.

Where to Write or Call: File a complaint online, send a letter to the HUD office nearest you, or if you wish, you may call that office directly. Persons who are deaf or hard of hearing and use a TTY, may call those offices through the toll-free Federal Information Relay Service at 1-800-877-8339.

For Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont:

If after contacting the local office nearest you, you still have questions – you may contact HUD further at:

U.S. Department of Housing and Urban Development
Office of Fair Housing and Equal Opportunity
451 7th Street, S.W., Room 5204
Washington, DC 20410-2000
Telephone 1-800-669-9777
Fax (202) 708-1425 * TTY 1-800-927-9275
www.hud.gov/fairhousing

If You Are Disabled: HUD also provides:

- A TTY phone for the deaf/hard of hearing users (see above list for the nearest HUD office)
- Interpreters, Tapes and Braille materials
- Assistance in reading and completing forms

WHAT HAPPENS WHEN YOU FILE A COMPLAINT?

HUD will notify you in writing when your complaint is accepted for filing under the Fair Housing Act. HUD also will:

- Notify the alleged violator (respondent) of the filing of your complaint, and allow the respondent time to submit a written answer to the complaint.
- Investigate your complaint, and determine whether or not there is reasonable cause to believe that the respondent violated the Fair Housing Act.
- Notify you and the respondent if HUD cannot complete its investigation within 100 days of filing your complaint, and provide reason for the delay.

Fair Housing Act Conciliation: During the complaint investigation, HUD is required to offer you and the respondent the opportunity to voluntarily resolve your complaint with a Conciliation Agreement.

A Conciliation Agreement provides individual relief to you, and protects the public interest by deterring future discrimination by the respondent. Once you and the respondent sign a Conciliation Agreement, and HUD approves the Agreement, HUD will cease investigating your complaint. If you believe that the respondent has violated breached your Conciliation Agreement, you should promptly notify the HUD Office that investigated your complaint. If HUD determines that there is reasonable cause to believe that the respondent violated the Agreement, HUD will ask the U.S. Department of Justice to file suit against the respondent in Federal District Court to enforce the terms of the Agreement.

Complaint Referrals to State or Local Public Fair Housing Agencies:

If HUD has certified that your State or local public fair housing agency enforces a civil rights law or ordinance that provides rights, remedies and protections that are “substantially equivalent” to the Fair Housing Act, HUD must promptly refer your complaint to that agency for investigation, and must promptly notify you of the referral. The State or local agency will investigate your complaint under the “substantially equivalent” State or local civil rights law or ordinance. The State or local public fair housing agency must start investigating your complaint within 30 days of HUD’s referral, or HUD may retrieve (“reactivate”) the complaint for investigation under the Fair Housing Act.

WHAT HAPPENS IF I’M GOING TO LOSE MY HOUSING THROUGH EVICTION OR SALE?

If you need immediate help to stop or prevent a severe problem caused by a Fair Housing Act violation, HUD may be able to assist you as soon as you file a complaint. HUD may authorize the U.S. Department of Justice to file a Motion in Federal District Court for a Temporary Restraining Order (TRO) against the respondent, followed by a Preliminary Injunction pending the outcome of HUD’s investigation. A Federal Judge may grant a TRO or a Preliminary Injunction against a respondent in cases where:

- Irreparable (irreversible) harm or injury to housing rights is likely to occur without HUD's intervention; and
- There is substantial evidence that the respondent has violated the Fair Housing Act.

Example: An owner agrees to sell a house, but, after discovering that the buyers are black, pulls the house off the market, then promptly lists it for sale again. The buyers file a discrimination complaint with HUD. HUD may authorize the U.S. Department of Justice to seek an injunction in Federal District Court to prevent the owner from selling the house to anyone else until HUD investigates the complaint.

WHAT HAPPENS AFTER A COMPLAINT INVESTIGATION?

Determination of Reasonable Cause, Charge of Discrimination, and Election: When your complaint investigation is complete, HUD will prepare a Final Investigative Report summarizing the evidence gathered during the investigation. If HUD determines that there is reasonable cause to believe that the respondent(s) discriminated against you, HUD will issue a Determination of Reasonable Cause and a Charge of Discrimination against the respondent(s). You and the respondent(s) have twenty (20) days after receiving notice of the Charge to decide whether to have your case heard by a HUD Administrative Law Judge (ALJ) or to have a civil trial in Federal District Court.

HUD Administrative Law Judge Hearing: If neither you nor the respondent elects to have a Federal civil trial before the 20-day Election Period expires, HUD will promptly schedule a Hearing for your case before a HUD ALJ. The ALJ Hearing will be conducted in the locality where the discrimination allegedly occurred. During the ALJ Hearing, you and the respondent(s) have the right to appear in person, to be represented by legal counsel, to present evidence, to cross-examine witnesses and to request subpoenas in aid of discovery of evidence. HUD attorneys will represent you during the ALJ Hearing at no cost to you; however, you may also

choose to intervene in the case and retain your own attorney. At the conclusion of the Hearing, the HUD ALJ will issue a Decision based on findings of fact and conclusions of law. If the HUD ALJ concludes that the respondent(s) violated the Fair Housing Act, the respondent(s) can be ordered to:

- Compensate you for actual damages, including out-of-pocket expenses and emotional distress damages
- Provide permanent injunctive relief.
- Provide appropriate equitable relief (for example, make the housing available to you).
- Pay your reasonable attorney's fees.
- Pay a civil penalty to HUD to vindicate the public interest. The maximum civil penalties are: \$16,000, for a first violation of the Act; \$37,500 if a previous violation has occurred within the preceding five-year period; and \$65,000 if two or more previous violations have occurred within the preceding seven-year period.

Civil Trial in Federal District Court: If either you or the respondent elects to have a Federal civil trial for your complaint, HUD must refer your case to the U.S. Department of Justice for enforcement. The U.S. Department of Justice will file a civil lawsuit on your behalf in the U.S. District Court in the district in which the discrimination allegedly occurred. You also may choose to intervene in the case and retain your own attorney. Either you or the respondent may request a jury trial, and you each have the right to appear in person, to be represented by legal counsel, to present evidence, to cross-examine witnesses, and to request subpoenas in aid of discovery of evidence. If the Federal Court decides in your favor, a Judge or jury may order the respondent(s) to:

- Compensate you for actual damages, including out-of-pocket expenses and emotional distress damages
- Provide permanent injunctive relief.
- Provide appropriate equitable relief (for example, make the housing available to you).
- Pay your reasonable attorney's fees.
- Pay punitive damages to you.

Determination of No Reasonable Cause and Dismissal: If HUD finds that there is no reasonable cause to believe that the respondent(s) violated the Act, HUD will dismiss your complaint with a Determination of No Reasonable Cause. HUD will notify you and the respondent(s) of the dismissal by mail, and you may request a copy of the Final Investigative Report.

Reconsiderations of No Reasonable Cause Determinations: The Fair Housing Act provides no formal appeal process for complaints dismissed by HUD. However, if your complaint is dismissed with a Determination of No Reasonable Cause, you may submit a written request for a reconsideration review to: Director, FHEO Office of Enforcement, U.S. Department of Housing and Urban Development, 451 7th Street, SW, Room 5206, Washington, DC 20410-2000.

IN ADDITION

You May File a Private Lawsuit: You may file a private civil lawsuit without first filing a complaint with HUD. You must file your lawsuit within two (2) years of the most recent date of alleged discriminatory action.

If you do file a complaint with HUD and even if HUD dismisses your complaint, the Fair Housing Act gives you the right to file a private civil lawsuit against the respondent(s) in Federal District Court. The time during which HUD was processing your complaint is not counted in the 2-year filing period. You must file your lawsuit at your own expense; however, if you cannot afford an attorney, the Court may appoint one for you.

Even if HUD is still processing your complaint, you may file a private civil lawsuit against the respondent, unless (1) you have already signed a HUD Conciliation Agreement to resolve your HUD complaint; or (2) a HUD Administrative Law Judge has commenced an Administrative Hearing for your complaint.

Other Tools to Combat Housing Discrimination:

- If there is noncompliance with the order of an Administrative Law Judge, HUD may seek temporary relief, enforcement of the order or a restraining order in a United States Court of Appeals.
- The Attorney General may file a suit in Federal District Court if there is reasonable cause to believe a pattern or practice of housing discrimination is occurring.

THE LEAD-SAFE CERTIFIED GUIDE TO RENOVATE RIGHT

WARNING
WORK AREA
POISON
SMOKING
& EATING

CAUTION CAUTION CAUTION CAUTION

Important lead hazard information for
families, child care providers and schools.

IT'S THE LAW!

Federal law requires contractors that disturb painted surfaces in homes, child care facilities and schools built before 1978 to be certified and follow specific work practices to prevent lead contamination. Always ask to see your contractor's certification.

Federal law requires that individuals receive certain information before renovating more than six square feet of painted surfaces in a room for interior projects or more than twenty square feet of painted surfaces for exterior projects or window replacement or demolition in housing, child care facilities and schools built before 1978.

- Homeowners and tenants: renovators must give you this pamphlet before starting work.
- Child care facilities, including preschools and kindergarten classrooms, and the families of children under six years of age that attend those facilities: renovators must provide a copy of this pamphlet to child care facilities and general renovation information to families whose children attend those facilities.

WHO SHOULD READ THIS PAMPHLET?

This pamphlet is for you if you:

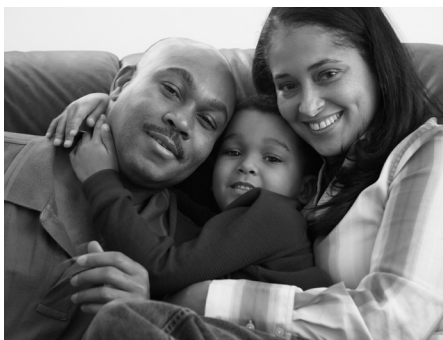

- Reside in a home built before 1978.
- Own or operate a child care facility, including preschools and kindergarten classrooms, built before 1978, or
- Have a child under six years of age who attends a child care facility built before 1978.

You will learn:

- Basic facts about lead and your health.
- How to choose a contractor, if you are a property owner.
- What tenants, and parents/guardians of a child in a child care facility or school should consider.
- How to prepare for the renovation or repair job.
- What to look for during the job and after the job is done.
- Where to get more information about lead.

This pamphlet is not for:

- **Abatement projects.** Abatement is a set of activities aimed specifically at eliminating lead or lead hazards. EPA has regulations for certification and training of abatement professionals. If your goal is to eliminate lead or lead hazards, contact the National Lead Information Center at **1-800-424-LEAD (5323)** for more information.
- **“Do-it-yourself”** projects. If you plan to do renovation work yourself, this document is a good start, but you will need more information to complete the work safely. Call the National Lead Information Center at **1-800-424-LEAD (5323)** and ask for more information on how to work safely in a home with lead-based paint.
- **Contractor education.** Contractors who want information about working safely with lead should contact the National Lead Information Center at **1-800-424-LEAD (5323)** for information about courses and resources on lead-safe work practices.

RENOVATING, REPAIRING, OR PAINTING?

- Is your home, your building, or the child care facility or school your children attend being renovated, repaired, or painted?
- Was your home, your building, or the child care facility or school where your children under six years of age attend built before 1978?

If the answer to these questions is YES, there are a few important things you need to know about lead-based paint.

This pamphlet provides basic facts about lead and information about lead safety when work is being done in your home, your building or the child care facility or school your children attend.

The Facts About Lead

- Lead can affect children's brains and developing nervous systems, causing reduced IQ, learning disabilities, and behavioral problems. Lead is also harmful to adults.
 - Lead in dust is the most common way people are exposed to lead. People can also get lead in their bodies from lead in soil or paint chips. Lead dust is often invisible.
 - Lead-based paint was used in more than 38 million homes until it was banned for residential use in 1978.
 - Projects that disturb painted surfaces can create dust and endanger you and your family. Don't let this happen to you. Follow the practices described in this pamphlet to protect you and your family.
-

LEAD AND YOUR HEALTH

Lead is especially dangerous to children under six years of age.

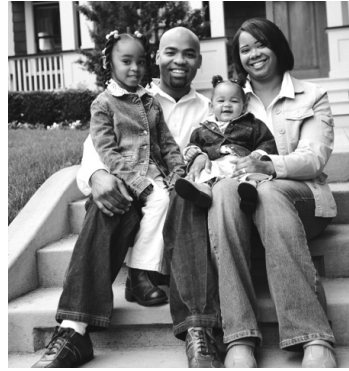

Lead can affect children's brains and developing nervous systems, causing:

- Reduced IQ and learning disabilities.
- Behavior problems.

Even children who appear healthy can have dangerous levels of lead in their bodies.

Lead is also harmful to adults. In adults, low levels of lead can pose many dangers, including:

- High blood pressure and hypertension.
- Pregnant women exposed to lead can transfer lead to their fetuses. Lead gets into the body when it is swallowed or inhaled.
- People, especially children, can swallow lead dust as they eat, play, and do other normal hand-to-mouth activities.
- People may also breathe in lead dust or fumes if they disturb lead-based paint. People who sand, scrape, burn, brush, blast or otherwise disturb lead-based paint risk unsafe exposure to lead.

What should I do if I am concerned about my family's exposure to lead?

- A blood test is the only way to find out if you or a family member already has lead poisoning. Call your doctor or local health department to arrange for a blood test.
- Call your local health department for advice on reducing and eliminating exposures to lead inside and outside your home, child care facility or school.
- Always use lead-safe work practices when renovation or repair will disturb painted surfaces.

For more information about the health effects of exposure to lead, visit the EPA lead website at [epa.gov/lead/pubs/leadinfo](https://www.epa.gov/lead/pubs/leadinfo) or call 1-800-424-LEAD (5323).

There are other things you can do to protect your family every day.

- Regularly clean floors, window sills, and other surfaces.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat a healthy, nutritious diet consistent with the USDA's dietary guidelines, that helps protect children from the effects of lead.
- Wipe off shoes before entering the house.

WHERE DOES THE LEAD COME FROM?

Dust is the main problem.

The most common way to get lead in the body is from dust. Lead dust comes from deteriorating lead-based paint and lead-contaminated soil that gets tracked into your home. This dust may accumulate to unsafe levels. Then, normal hand to-mouth activities, like playing and eating (especially in young children), move that dust from surfaces like floors and window sills into the body.

Home renovation creates dust.

Common renovation activities like sanding, cutting, and demolition can create hazardous lead dust and chips.

Proper work practices protect you from the dust.

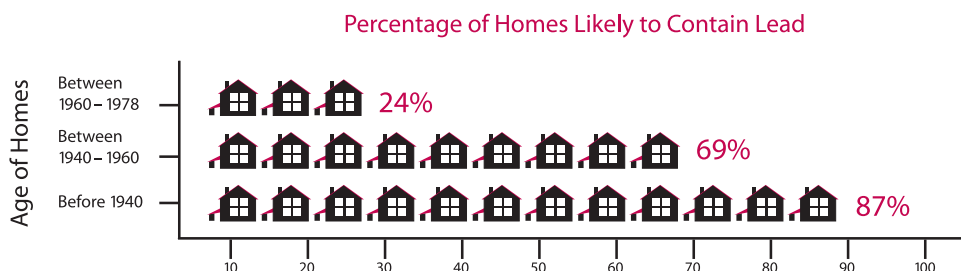

The key to protecting yourself and your family during a renovation, repair or painting job is to use lead-safe work practices such as containing dust inside the work area, using dust-minimizing work methods, and conducting a careful cleanup, as described in this pamphlet.

Other sources of lead.

Remember, lead can also come from outside soil, your water, or household items (such as lead-glazed pottery and lead crystal). Contact the National Lead Information Center at 1-800-424-LEAD (5323) for more information on these sources.

CHECKING YOUR HOME FOR LEAD-BASED PAINT

Older homes, child care facilities, and schools are more likely to contain lead-based paint.

Homes may be single-family homes or apartments. They may be private, government-assisted, or public housing. Schools are preschools and kindergarten classrooms. They may be urban, suburban, or rural.

You have the following options:

You may decide to assume your home, child care facility, or school contains lead.

Especially in older homes and buildings, you may simply want to assume lead-based paint is present and follow the lead-safe work practices described in this brochure during the renovation, repair, or painting job.

You can hire a certified professional to check for lead-based paint.

These professionals are certified risk assessors or inspectors, and can determine if your home has lead or lead hazards.

- A certified inspector or risk assessor can conduct an inspection telling you whether your home, or a portion of your home, has lead-based paint and where it is located. This will tell you the areas in your home where lead-safe work practices are needed.
- A certified risk assessor can conduct a risk assessment telling you if your home currently has any lead hazards from lead in paint, dust, or soil. The risk assessor can also tell you what actions to take to address any hazards.
- For help finding a certified risk assessor or inspector, call the National Lead Information Center at 1-800-424-LEAD (5323).

You may also have a certified renovator test the surfaces or components being disturbed for lead by using a lead test kit or by taking paint chip samples and sending them to an EPA-recognized testing laboratory. Test kits must be EPA-recognized and are available at hardware stores. They include detailed instructions for their use.

FOR PROPERTY OWNERS

You have the ultimate responsibility for the safety of your family, tenants, or children in your care.

This means properly preparing for the renovation and keeping persons out of the work area (see p. 8). It also means ensuring the contractor uses lead-safe work practices.

Federal law requires that contractors performing renovation, repair and painting projects that disturb painted surfaces in homes, child care facilities, and schools built before 1978 be certified and follow specific work practices to prevent lead contamination.

Make sure your contractor is certified, and can explain clearly the details of the job and how the contractor will minimize lead hazards during the work.

- You can verify that a contractor is certified by checking EPA's website at [epa.gov/getleadsafe](https://www.epa.gov/getleadsafe) or by calling the National Lead Information Center at 1-800-424-LEAD (5323). You can also ask to see a copy of the contractor's firm certification.
- Ask if the contractor is trained to perform lead-safe work practices and to see a copy of their training certificate.
- Ask them what lead-safe methods they will use to set up and perform the job in your home, child care facility or school.
- Ask for references from at least three recent jobs involving homes built before 1978, and speak to each personally.

Always make sure the contract is clear about how the work will be set up, performed, and cleaned.

- Share the results of any previous lead tests with the contractor.
- You should specify in the contract that they follow the work practices described on pages 9 and 10 of this brochure.
- The contract should specify which parts of your home are part of the work area and specify which lead-safe work practices will be used in those areas. Remember, your contractor should confine dust and debris to the work area and should minimize spreading that dust to other areas of the home.
- The contract should also specify that the contractor will clean the work area, verify that it was cleaned adequately, and re-clean it if necessary.

If you think a worker is not doing what he is supposed to do or is doing something that is unsafe, you should:

- Direct the contractor to comply with regulatory and contract requirements.
- Call your local health or building department, or
- Call EPA's hotline 1-800-424-LEAD (5323).

If your property receives housing assistance from HUD (or a state or local agency that uses HUD funds), you must follow the requirements of HUD's Lead-Safe Housing Rule and the ones described in this pamphlet.

FOR TENANTS AND FAMILIES OF CHILDREN UNDER SIX YEARS OF AGE IN CHILD CARE FACILITIES AND SCHOOLS

You play an important role ensuring the ultimate safety of your family.

This means properly preparing for the renovation and staying out of the work area (see p. 8).

Federal law requires that contractors performing renovation, repair and painting projects that disturb painted surfaces in homes built before 1978 and in child care facilities and schools built before 1978, that a child under six years of age visits regularly, to be certified and follow specific work practices to prevent lead contamination.

The law requires anyone hired to renovate, repair, or do painting preparation work on a property built before 1978 to follow the steps described on pages 9 and 10 unless the area where the work will be done contains no lead-based paint.

If you think a worker is not doing what he is supposed to do or is doing something that is unsafe, you should:

- Contact your landlord.
- Call your local health or building department, or
- Call EPA's hotline **1-800-424-LEAD (5323)**.

If you are concerned about lead hazards left behind after the job is over, you can check the work yourself (see page 10).

PREPARING FOR A RENOVATION

The work areas should not be accessible to occupants while the work occurs.

The rooms or areas where work is being done may need to be blocked off or sealed with plastic sheeting to contain any dust that is generated. Therefore, the contained area may not be available to you until the work in that room or area is complete, cleaned thoroughly, and the containment has been removed. Because you may not have access to some areas during the renovation, you should plan accordingly.

You may need:

- Alternative bedroom, bathroom, and kitchen arrangements if work is occurring in those areas of your home.
- A safe place for pets because they too can be poisoned by lead and can track lead dust into other areas of the home.
- A separate pathway for the contractor from the work area to the outside in order to bring materials in and out of the home. Ideally, it should not be through the same entrance that your family uses.
- A place to store your furniture. All furniture and belongings may have to be moved from the work area while the work is being done. Items that can't be moved, such as cabinets, should be wrapped in plastic.
- To turn off forced-air heating and air conditioning systems while the work is being done. This prevents dust from spreading through vents from the work area to the rest of your home. Consider how this may affect your living arrangements.

You may even want to move out of your home temporarily while all or part of the work is being done.

Child care facilities and schools may want to consider alternative accommodations for children and access to necessary facilities.

DURING THE WORK

Federal law requires contractors that are hired to perform renovation, repair and painting projects in homes, child care facilities, and schools built before 1978 that disturb painted surfaces to be certified and follow specific work practices to prevent lead contamination.

The work practices the contractor must follow include these three simple procedures, described below:

1. Contain the work area. The area must be contained so that dust and debris do not escape from that area. Warning signs must be put up and plastic or other impermeable material and tape must be used as appropriate to:

- Cover the floors and any furniture that cannot be moved.
- Seal off doors and heating and cooling system vents.
- For exterior renovations, cover the ground and, in some instances, erect vertical containment or equivalent extra precautions in containing the work area.

These work practices will help prevent dust or debris from getting outside the work area.

2. Avoid renovation methods that generate large amounts of lead-contaminated dust.

Some methods generate so much lead-contaminated dust that their use is prohibited.

They are:

- Open flame burning or torching.
- Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment.
- Using a heat gun at temperatures greater than 1100°F.

There is no way to eliminate dust, but some renovation methods make less dust than others. Contractors may choose to use various methods to minimize dust generation, including using water to mist areas before sanding or scraping; scoring paint before separating components; and prying and pulling apart components instead of breaking them.

3. Clean up thoroughly. The work area should be cleaned up daily to keep it as clean as possible. When all the work is done, the area must be cleaned up using special cleaning methods before taking down any plastic that isolates the work area from the rest of the home. The special cleaning methods should include:

- Using a HEPA vacuum to clean up dust and debris on all surfaces, followed by
- Wet wiping and wet mopping with plenty of rinse water.

When the final cleaning is done, look around. There should be no dust, paint chips, or debris in the work area. If you see any dust, paint chips, or debris, the area must be re-cleaned.

FOR PROPERTY OWNERS: AFTER THE WORK IS DONE

When all the work is finished, you will want to know if your home, child care facility, or school where children under six attend has been cleaned up properly.

EPA Requires Cleaning Verification.

In addition to using allowable work practices and working in a lead-safe manner, EPA's RRP rule requires contractors to follow a specific cleaning protocol. The protocol requires the contractor to use disposable cleaning cloths to wipe the floor and other surfaces of the work area and compare these cloths to an EPA-provided cleaning verification card to determine if the work area was adequately cleaned. EPA research has shown that following the use of lead-safe work practices with the cleaning verification protocol will effectively reduce lead-dust hazards.

Lead-Dust Testing.

EPA believes that if you use a certified and trained renovation contractor who follows the LRRP rule by using lead-safe work practices and the cleaning protocol after the job is finished, lead-dust hazards will be effectively reduced. If, however, you are interested in having lead-dust testing done at the completion of your job, outlined below is some helpful information.

What is a lead-dust test?

- Lead-dust tests are wipe samples sent to a laboratory for analysis. You will get a report specifying the levels of lead found after your specific job.

How and when should I ask my contractor about lead-dust testing?

- Contractors are not required by EPA to conduct lead-dust testing. However, if you want testing, EPA recommends testing be conducted by a lead professional. To locate a lead professional who will perform an evaluation near you, visit EPA's website at [epa.gov/lead/pubs/locate](https://www.epa.gov/lead/pubs/locate) or contact the National Lead Information Center at **1-800-424-LEAD (5323)**.
- If you decide that you want lead-dust testing, it is a good idea to specify in your contract, before the start of the job, that a lead-dust test is to be done for your job and who will do the testing, as well as whether re-cleaning will be required based on the results of the test.
- You may do the testing yourself. If you choose to do the testing, some EPA-recognized lead laboratories will send you a kit that allows you to collect samples and send them back to the laboratory for analysis. Contact the National Lead Information Center for lists of EPA-recognized testing laboratories.

FOR ADDITIONAL INFORMATION

You may need additional information on how to protect yourself and your children while a job is going on in your home, your building, or child care facility.

The National Lead Information Center at **1-800-424-LEAD (5323)** or epa.gov/lead/nlic can tell you how to contact your state, local, and/or tribal programs or get general information about lead poisoning prevention.

- State and tribal lead poisoning prevention or environmental protection programs can provide information about lead regulations and potential sources of financial aid for reducing lead hazards. If your state or local government has requirements more stringent than those described in this pamphlet, you must follow those requirements.
- Local building code officials can tell you the regulations that apply to the renovation work that you are planning.
- State, county, and local health departments can provide information about local programs, including assistance for lead-poisoned children and advice on ways to get your home checked for lead.

The National Lead Information Center can also provide a variety of resource materials, including the following guides to lead-safe work practices. Many of these materials are also available at epa.gov/lead/pubs/brochure

- Steps to Lead Safe Renovation, Repair and Painting.
- Protect Your Family from Lead in Your Home
- Lead in Your Home: A Parent's Reference Guide

For the hearing impaired, call the Federal Information Relay Service at 1-800-877-8339 to access any of the phone numbers in this brochure.

EPA CONTACTS

EPA Regional Offices

EPA addresses residential lead hazards through several different regulations. EPA requires training and certification for conducting abatement and renovations, education about hazards associated with renovations, disclosure about known lead paint and lead hazards in housing, and sets lead-paint hazard standards.

Your Regional EPA Office can provide further information regarding lead safety and lead protection programs at [epa.gov/lead](https://www.epa.gov/lead).

OTHER FEDERAL AGENCIES

CPSC

The Consumer Product Safety Commission (CPSC) protects the public from the unreasonable risk of injury or death from 15,000 types of consumer products under the agency's jurisdiction. CPSC warns the public and private sectors to reduce exposure to lead and increase consumer awareness. Contact CPSC for further information regarding regulations and consumer product safety.

HUD Office of Healthy Homes and Lead Hazard Control

The Department of Housing and Urban Development (HUD) provides funds to state and local governments to develop cost-effective ways to reduce lead-based paint hazards in America's privately-owned low-income housing. In addition, the office enforces the rule on disclosure of known lead paint and lead hazards in housing, and HUD's lead safety regulations in HUD-assisted housing, provides public outreach and technical assistance, and conducts technical studies to help protect children and their families from health and safety hazards in the home. Contact the HUD Office of Healthy Homes and Lead Hazard Control for information on lead regulations, outreach efforts, and lead hazard control research and outreach grant programs.

SAMPLE PRE-RENOVATION FORM

This sample form may be used by renovation firms to document compliance with the Federal pre-renovation education and renovation, repair, and painting regulations.

Occupant Confirmation

Pamphlet Receipt

- ☐ I have received a copy of the lead hazard information pamphlet informing me of the potential risk of the lead hazard exposure from renovation activity to be performed in my dwelling unit. I received this pamphlet before the work began.

Printed Name of Owner-occupant

Signature of Owner-occupant

Signature Date

Renovator's Self Certification Option (for tenant-occupied dwellings only)

Instructions to Renovator: If the lead hazard information pamphlet was delivered but a tenant signature was not obtainable, you may check the appropriate box below.

- ☐ **Declined** – I certify that I have made a good faith effort to deliver the lead hazard information pamphlet to the rental dwelling unit listed below at the date and time indicated and that the occupant declined to sign the confirmation of receipt. I further certify that I have left a copy of the pamphlet at the unit with the occupant.
- ☐ **Unavailable for signature** – I certify that I have made a good faith effort to deliver the lead hazard information pamphlet to the rental dwelling unit listed below and that the occupant was unavailable to sign the confirmation of receipt. I further certify that I have left a copy of the pamphlet at the unit by sliding it under the door or by (fill in how pamphlet was left).

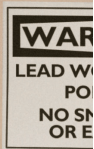

Printed Name of Person Certifying Delivery

Attempted Delivery Date

Signature of Person Certifying Lead Pamphlet Delivery

Unit Address

Note Regarding Mailing Option — As an alternative to delivery in person, you may mail the lead hazard information pamphlet to the owner and/or tenant. Pamphlet must be mailed at least seven days before renovation. Mailing must be documented by a certificate of mailing from the post office.
